Nyonya Kain

HERITAGE TEXTILES FOR MODERN LIVING

PROPOSAL & FIXED-PRICE QUOTATION

Website Cleanup, Optimisation & Handover

A focused plan to organise, improve and stabilise nyonyakain.com on the existing WordPress + WooCommerce setup, so the owner can confidently manage routine updates.

PREPARED FOR	PREPARED BY	DATE
Nyonya Kain	[Your name / company]	November 2026

1 Our understanding

Nyonya Kain needs a **cleanup and organisation** of its existing website, not a full rebuild. The goal is a site that is tidy, easy to navigate, works properly on desktop and mobile, and is handed over with clear documentation so the owner can update products, pages and articles independently.

WEBSITE
nyonyakain.com
Existing live site

PLATFORM
WordPress + WooCommerce
Existing theme retained

HOSTING
Hostinger
Current provider, no migration

2 Approach

Safety first
- ✓ Full backup of files and database before any change
- ✓ Changes tested on a staging copy where practical
- ✓ Approval requested before deleting content or touching checkout

Keep what works
- ✓ Existing theme, orders, customers and URLs preserved
- ✓ Any change that may affect SEO flagged in advance
- ✓ Product data kept intact unless change approved

Owner in control
- ✓ Ownership of domain, hosting and licences confirmed
- ✓ All access and credentials documented
- ✓ Owner trained to run routine updates

Clear communication
- ✓ Audit findings shared before work begins
- ✓ Change log kept throughout the project
- ✓ Out-of-scope items priced separately, in writing

3 Proposed tasks

A Initial Technical Audit & Access Review

- Review WordPress, WooCommerce, hosting, domain, DNS, SSL and plugins
- Identify access, ownership, renewal or technical issues (Hostinger & domain)
- List themes, plugins and paid licences in use
- Written summary of current status, limitations, extra costs and recommended next steps, **before** work begins

B Website Backup & Safe Working Process

- Full backup (files + database) before any change; downloadable copy for the owner
- Staging/test environment via Hostinger where available
- Preserve content, orders, customer info, URLs and configuration
- Written approval before deleting content or changing live orders/checkout

C Product & Image Organisation

- Clean up **up to 20** existing WooCommerce product listings
- Organise categories, titles, images and galleries
- Remove/correct duplicate, incorrect or poorly sized images (replacements supplied by owner)
- Check descriptions, prices, variations and key information; compress images for faster loading

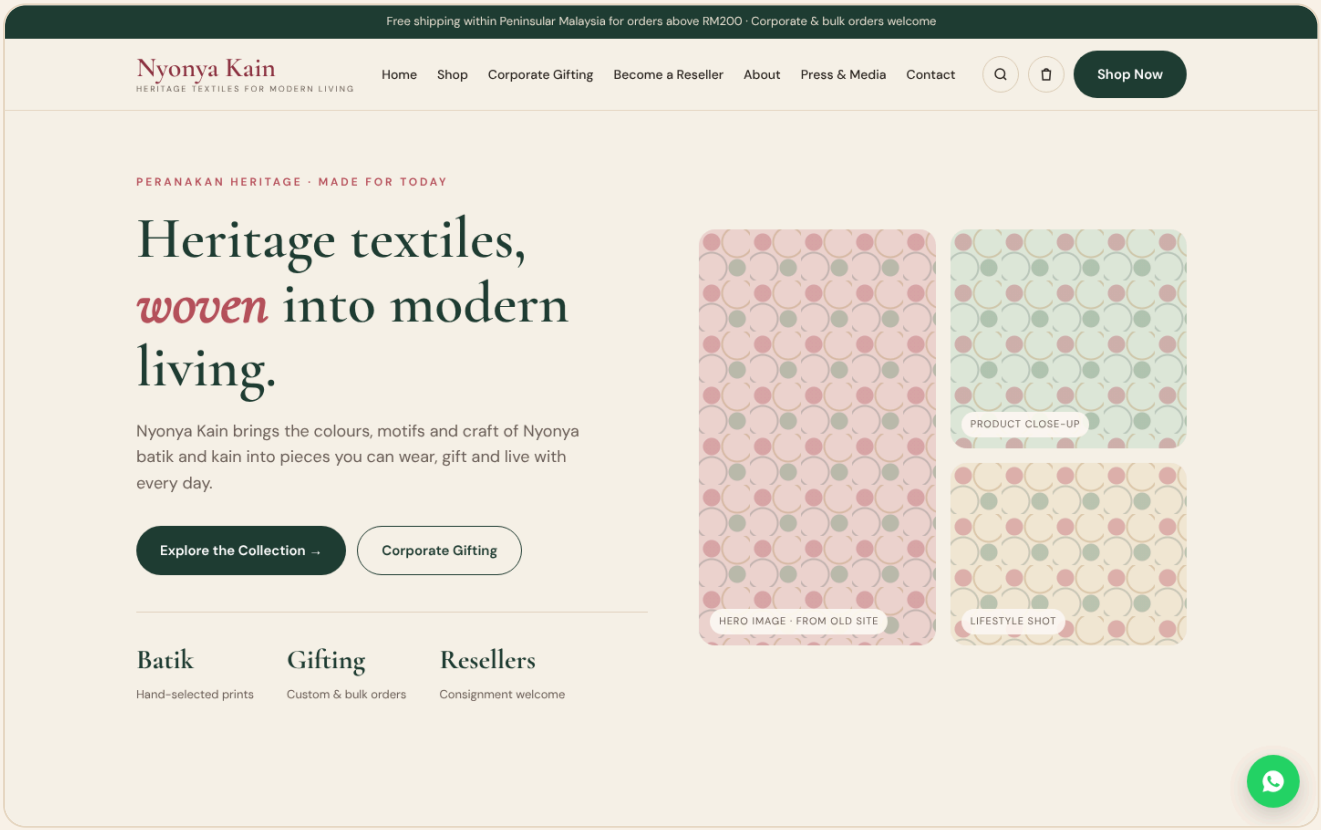

D Website Navigation & Content Organisation

Restructure navigation using the current theme so key information is easier to find. Proposed sitemap:

Home

Shop	Corporate Gifting	Become a Reseller	About	Founder, Press & Media	Contact
Organised catalogue & categories	Custom orders & enquiry form	Programme, eligibility, how to apply	Brand story, values	Interviews, articles, talks	WhatsApp, email, social

HOMEPAGE DIRECTION (REFRESH WITHIN EXISTING THEME)

Illustrative only. Final layout follows the current theme's capabilities; real images and copy are taken from the existing site.

E Functionality & Usability Checks

- ✓ Desktop and mobile testing of navigation, menus, links and images
- ✓ Contact links, WhatsApp buttons and enquiry forms verified
- ✓ Product pages, cart and checkout tested (safe test method if store is active)
- ✓ Corporate gifting and reseller enquiry pathways tested end to end
- ✓ Broken links, display issues and technical errors fixed or reported
- ✓ Existing URLs preserved; any SEO-affecting change flagged

F Training, Documentation & Handover

- ✓ 60–90 minute live screen-shared training
- ✓ Recording of the session for future reference
- ✓ Simple written guide: add/edit products, replace images, update pages, publish articles
- ✓ Guidance on backups, routine updates and when to get professional help
- ✓ Summary of hosting, domain, plugin & licence arrangements incl. renewals and costs
- ✓ Change log, outstanding issues and recommended next steps
- ✓ Confirmation owner controls website, domain, hosting, content, backups and accounts
- ✓ **14-day** post-handover period to fix defects from agreed work

Exclusions

Complete redesign, custom theme development, custom reseller login portal, inventory or CRM integrations, extensive copywriting, professional photography, major data recovery, complex migration, paid plugins/software subscriptions, and complicated ownership recovery. Any work outside the agreed scope will be identified, priced and approved in writing before it begins.

4 Fixed-price quotation

#	Task	Est. hours	Amount (RM)
A	Technical audit & access review, with written report	3	100
B	Full backup, staging setup & safe working process	2	80
C	Product & image organisation (up to 20 products)	8	270
D	Navigation & content organisation (7 key pages/sections)	6	200
E	Functionality & usability checks (desktop + mobile)	3	100
F	Training (60–90 min, recorded), written guide & handover pack	5	200
	Total fixed price	**27**	**RM 950**

Estimated timeline: 10–14 working days

Day 1–2	Access, audit report & full backup (A, B)
Day 3–7	Products, images, navigation & pages (C, D)
Day 8–9	Testing & fixes (E), client review
Day 10–12	Revisions, documentation & training (F)
+14 days	Post-handover defect support

Payment milestones

50% deposit on acceptance	RM 475
50% on completion & training	RM 475

Price excludes third-party costs (domain/hosting renewals, paid plugins, licences), which are paid directly by the owner.

5 Completion criteria

- Agreed website and product cleanup completed
- Content pages and navigation in place
- Functionality checks passed on desktop and mobile
- Backup and handover documentation provided
- Training session completed and recording supplied
- Outstanding issues and account matters documented
- Owner can manage routine updates independently

6 About us

Experience

[Years of WordPress & WooCommerce experience, short bio]

Relevant work

[2–3 WordPress / WooCommerce sites with links]

7 What we need to start

- WordPress admin access (Administrator)
- Hostinger account access, or a delegated/collaborator login
- Domain registrar access (or confirmation of who holds it)
- Replacement images and any updated product information
- Brand story, founder bio and list of media features / press links

Acceptance

This quotation is valid for 30 days. To proceed, reply to confirm and the deposit invoice will be issued.
